

## The Prime Minister's Science Prizes

### About the Prize

- This Prize will be awarded to either a practising scientist<sup>1</sup> who can demonstrate an interest, passion and aptitude for science communication and public engagement, *or* to a person who has developed expertise in public engagement with, or communication of complex scientific or technological information to the public.
- \$50,000 of the Prize is to be used to support the recipient to carry out a programme of activities to further their understanding of media communication.
- \$50,000 of the Prize money is available to the recipient with no expectations on its use.
- **Applications close at 5pm on Wednesday 5 September 2018.**

<sup>1</sup>Taken to include natural, physical, mathematical and information sciences, applied sciences, technology, engineering, social science and multi-disciplinary science

### Eligibility

The Prize will be awarded to either a practising scientist<sup>1</sup> who can demonstrate an interest, passion and aptitude for science communication and public engagement, *or* to a person who has developed expertise in public engagement with, or communication of complex scientific or technological information to the public using recent examples *e.g.* public audiences, local science community/wider and international science community.

- Applicants must be a New Zealand citizen or New Zealand permanent resident.
- Re-application by candidates from previous years is encouraged, as long as the eligibility criteria continue to be met. However, past winners of the Prize will not be eligible to enter a second time.

<sup>1</sup>Taken to include natural, physical, mathematical and information sciences, applied sciences, technology, engineering, social science and multi-disciplinary science

## Entry Process

- All entries must be completed and received by **5pm on Wednesday 5 September 2018**.
- The process will involve interested applicant's completing an online entry form.
- Applicant's will also need one current Supporter who must be knowledgeable about the applicant's communication activities and is able to comment on their effectiveness.
- The Supporter will be expected to complete an on-line form which asks them to address the selection criteria. *A link will be emailed to the supporter after the entry section has been completed.*

Please note that information provided in the nomination may be subject to the Official Information Act.

## Criteria

**The Prize will be adjudicated on the applicant's commitment and aptitude for science communication.**

Applicants should present an application statement setting out (with cross references to an attached evidence portfolio):

- Their approach to science communication, including how to identify appropriate means for engagement, and how to design an engagement or communication programme. (500 words)
- Summary of recent successful science communication or engagement activities with a diversity of audiences. (500 words)
- The proposed programme of developmental activity that would be undertaken if the application was successful. (500 words)
- How the applicant intends to further their role in science communication in the future. (500 words)

Assessment will include consideration of supporter's statements and an interview of shortlisted candidates.

## Selection Panel

- An independent selection panel is selected by the secretariat and the Prime Minister's decision to present the Prize will have regard to the advice of the selection panel.

Centre for Science Communication, University of Otago

- It is recognised that occasionally members of the selection panel will know applicants or have other conflicts of interest. They will be expected to declare all such knowledge and conflicts of interests. In the case of knowing an applicant the Chair of the selection panel will rule if this is significant enough for the panelist to be stood down from the Panel for that applicant. (In the case of the Chair having a conflict of interest the decision will be made by another member of the Panel who has been identified in this role at the beginning of the process). If there is a conflict of interest the panelist will stand down for that application.
- The selection panel will not enter into any correspondence concerning its deliberations. All inquiries should be directed to the Secretariat. Note that information on matters such as ranking, or names of unsuccessful nominees, will not be disclosed.
